The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims dependent from a canceled claim (claim 12) thus, it is impossible to determine their beats and bounds.

Claims 1-15 and 18-20 are allowed. It is noted that the newly cited prior art does not show protective layers of different thicknesses on opposite surfaces of the piezoelectric diaphragm.
